Terrible Explosion of Dynamite at Johannesburg in South Africa.

One Hundred Persons Killed and Probably Twice That Number Wounded.

The Entire Suburb of Viewdorp was Literally Blown to Pieces.

(Copyrighted, 1896, by the Associated Press.)

Johannesburg, South Africa, Feb. 20.—Details are reaching this city today of what is probably the most disastrous dynamite explosion on record in any part of the world. Thousands of people have been rendered homeless by the terrible calamity, about 100 persons are believed to have been killed, some 200 or 300 men, women and children have been severely wounded and many others have been more or less injured.

Viewdorp, the scene of the calamity, is a suburb of Johannesburg. In it are huddled members of the poorer classes of the whites of the Rand, Malays, Kafirs and Chinamen, who subsist for the most part by doing odd jobs about the place, which is a railway station for the mining districts of the section.

Among the first cars standing on the shunt miles at Viewdorp yesterday were eight trucks loaded with dynamite. The deadly stuff was hidden under canvas covers to protect it from the rain.

There was an explosion near the depot, so awful in the intensity of its force that the ground around it was cracked as if by an earthquake. Houses rocked and fell, masses of iron, earth, stone, wood, and human remains were hurled skyward, the windows of almost every house in Johannesburg were broken and people were blown through the air like birds before a gust of wind. The explosion had a hole 200 feet high in the earth, and wide over the spot where the eight trucks of dynamite stood, but a few minutes later the fire had been extinguished.

Johannesburg was literally blown to pieces. The effects of the explosion could be seen over a radius of more than a mile, and almost everything within a half mile where the trucks had been situated for the night was raised to the ground and demolished beyond redemption. Iron tracks, wheels and brick work were pulverized. On the ground were mangled shapes of human remains, limbs, heads, trunks, and other fragments.

The victims were mostly Malays, Kafirs and Chinamen, the whites being in a minority at Viewdorp, but in spite of this, quite a number of white people, including six girls, are among the many victims of this horrible calamity.

Fifteen minutes after the explosion occurred all the houses in the vicinity were all horribly mutilated, were picked up and carried away from the scene, while the searching of the debris was begun without intermission. Over 200 of the most severely injured persons were also carried away, and hundreds of others were taken to places where they might be cured. In addition to the wounded, thousands of people were rendered homeless by the explosion are being cared for by the charitable, and will receive assistance until they can begin life anew.

Pieces of stone, iron and brick are scattered all over Johannesburg. Every building has felt the great shock more or less. Every physician in or about Johannesburg is attending to the victims of the explosion. The headquarters of the Wanderers Club is being used as a more than usual number of the injured are club members. The bodies of many of the victims are being buried in the club rooms of the Wanderers Club, which are being used as a more than usual number of the injured are club members.

The exact extent of the disaster will never be known. According to the latest reports, however, about 100 persons have been killed and about 200 people wounded severely. In addition, it is estimated that about 100 more have been less severely injured. Several of the wounded have since died of their injuries. All the hospitals are filled with sufferers from the explosion, and many private houses have been turned into refuges for the wounded and homeless. Most of the houses in Viewdorp were built of corrugated iron, as is used in South African suburbs, and of this material, any way near the spot where the explosion took place, hardly a vestige remains. A petition for subscription has been opened for the relief of the wounded and homeless. Already over \$300,000 has been raised, and this amount will reach \$500,000 before night.

In addition, steps have already been taken to clear away the debris from the grounds. A portion of the money subscribed will be invested in building materials, and the work of reconstructing Viewdorp will be commenced as soon as the remains of the dead are interred.

On the occasion will be marked by a turn out of almost the entire population of Johannesburg. The Wanderers Club and the Chinamen are working harmoniously in securing the wounded and homeless. The disaster seems to have done a great deal toward healing the soreness which has been so much to be feared in the past, and may do much to cement a new and better feeling between the foreign population and the Boers. President Kruger has telegraphed his sympathy with the people of Johannesburg in the emergency, and he is being kept posted on all the details of the great calamity.

## REPUBLICAN CLUBS.

Proceedings of the League at the Chicago Meeting.

Chicago, Feb. 20.—At the afternoon session the members of the Republican League met about raising funds to carry on the campaign of 1896. New York came forward with a cash subscription, and was followed at 2c by other states. It soon became apparent that all financial difficulties would be overcome. At this juncture a telegram was received from the attorney of the League congratulating the meeting on the successful outcome of the campaign which had been going on since 1888, in Albany, by which the League is given \$17,000, which it had used to recover a literature contest at the League in the general election.

A telegram of sympathy was sent to James H. Mauley, of Augusta, Me., regarding the death of his wife. The secretary was instructed to distribute 10,000 copies of T. B. Waller's leaflet, pamphlet, "The League at the Chicago Meeting." It was decided to open headquarters for the League at the Lindell hotel, in St. Louis, and it is expected that there will be a large attendance of League members at the convention.

The general meeting of the League will be held in the convention hall the night of June 16, but the League will not go pledged to any candidate, and will only work for general Republican interests. In regard to the raising of funds, a committee on rates was appointed, consisting of John Gordon, M. J. Dowling, O. L. Rosenkrantz, and one securing speakers, consisting of Messrs. McAlpin, Galloway, West, Baxter and Dowling.

Reports from the general meeting of the League in the different states showed good working organizations in all the states, except California, and the secretary was instructed to organize that state at once. The state of Iowa claims to be the best organized of any of the states, with 700 clubs in good standing. Iowa's League organization has been generally adopted by the other states of the League.

THE CHURCH INSURGENTS.  
Washington, Feb. 20.—(Special to The Herald.)—Representative Towne has introduced a bill to amend the act authorizing the construction of a bridge between Duluth and Superior. It provides that the Duluth and Superior Bridge company be authorized to construct a bridge across the St. Louis river between Cassville Point, Wisconsin, and Rice's Point, Minnesota. The bridge shall provide for steam cars on double tracks, for the passage of wagons and vehicles of all kinds and for the transit of animals for such reasonable rates of toll as may be agreed upon by the parties in interest and approved by the secretary of war. The bridge shall, however, be free to employ the police and fire departments of both cities when in actual litigation over obstructions to navigation are to be tried by the circuit court of the United States. All construction is to be done with the approval of the secretary of war. The bridge is to be begun in one year and completed in four years after the passage of the act.

GIVES FOUR YEARS MORE IN WHICH TO COMPLETE THE STRUCTURE.

POSTAL SERVICE ABUSES.

A bill has been introduced in congress by Representative Lusk, of California, which has received the unanimous approval of the committee on postoffice and post roads. Its aim is to remedy the abuses of the postal service. It provides for a radical change in the postal laws relating to second-class matter, so as to exclude from this class a large volume of matter now mailed under it which it is contended has no proper claim to be thus classified. Postmaster General Bliss's last report showed that six years ago the department had accepted for entry 24,304 new publications, although as a matter of fact the net increase of newspaper and periodical publications within that period had been but 3747, only 15 per cent of the total number. The volume of second-class matter exclusive of the county free deliveries increased from 143,000,000 pounds in 1888 to 263,000,000 pounds in 1894, thus nearly doubling in six years, all of it mailed at the uniform rate of 1 cent a pound. It was estimated by Postmaster General Wanamaker in 1890 that there were probably 50,000 tons of so-called serials mailed every year, and since that time the business has enormously increased. A vast amount of trashy literature goes through the mails as second-class matter which the Lusk bill would exclude and which there can be no doubt ought to be excluded. This measure provides that available matter of the second-class shall embrace all newspapers and other periodical publications which are issued at stated intervals, and as frequently as four times a year, but of the kind of matter to be included is left to the discretion of the postoffice department, and are merely books or reprints of books, shall not be admitted to the second-class rate, whether they be issued complete or in parts, whether they be bound or unbound, whether they be sold by subscription or otherwise, or whether they purport to be premiums or supplements or parts of regular newspapers or periodicals.

A law passed in 1884 admits to second-class privileges all papers or pamphlets published under the auspices of benevolent or fraternal orders, incorporated institutions of learning, trade unions, state boards of health and professional, literary, historical, or scientific associations, and this regardless of their periodicity of issue. The Lusk bill repeals that law and substitutes a clause admitting periodicals regularly issued under the Lusk system, with a bona fide membership of not less than 1000 persons, and trade unions will be included among the societies. If enacted this will cut off more than half the publications which have been entered under the act of 1884, the aggregate number of copies of such publications circulated through the mails during last fiscal year having been about 17,000,000.

There is great need of reform in this matter, and the Lusk bill should be passed. It is believed that with these abuses corrected the postal service would be self-sustaining. If those who are urging the adoption of 1-cent postage would join hands with the supporters of the Lusk bill and endeavor to secure its adoption by congress they would advance their own cause greatly. Until the postoffice department becomes self-sustaining, there can be no serious idea of adopting the 1-cent postage idea, therefore those who are advocating this idea should do all in their power

to make the department self-sustaining by remedying the abuses mentioned above.

GOLD'S ENHANCED VALUE.

While the Pioneer Press is preparing another article claiming that gold has just appreciated, it should not omit consideration of the speech recently made by Mr. Balfour, the first lord of the treasury, to a deputation representing the British agricultural interests. Mr. Balfour stated that it was his personal conviction that agriculture suffered doubly owing to the present condition of the currency, and expressed his personal belief that the reduced prices were largely due to the artificial appreciation of gold which followed the demonetization of silver; and secondly to the artificial advantage given the producer in silver-using countries. Contributing, Mr. Balfour said, to the obstacles to reform did not come from abroad. They were to be found at home. Therefore it was desirable to impress upon the powerful interests opposing it how much the nation and individual prosperity were bound up in currency reform.

The above statement by Mr. Balfour will give some comfort to the Pioneer Press in its claim that gold has just appreciated, and that the demonetization of silver did not cause the fall in prices. The fact is, as the National Metallist puts it, that the demonetization of silver in 1873 cost a billion dollars every country that adopted the gold standard. It will be seen that Mr. Balfour refers to the "appreciation of gold," not the "depreciation of silver" as we have it so flippantly expressed by the goldites in the United States. He ascribes the low prices to the appreciation of gold, while business men recognize in "low prices" the cause of the business depression that bears so heavily upon us. It will be seen also, that Mr. Balfour has a keen perception of the advantages which silver-using countries now have over those upon the standard of gold. Indeed the silver movement of the United States is in perfect accord with the best economic thinkers of Europe, and yet they are denounced as "anarchist maniacs" and "thorough-paced scoundrels" to look decent men in the face."

THE STEEL BUSINESS.

The Chicago Record draws special attention to the fact that the Illinois steel company will resume the payment of dividends after the lapse of three years. The balance sheet of Dec. 31, 1894, showed a deficit of \$18,865, but that of Dec. 31, 1895, showed a profit of \$1,234,200, leaving undivided profits of \$914,091, after wiping out the deficit of the preceding year. The directors of the company at their meeting recently, therefore, felt warranted in declaring a dividend of 154 per cent on the capital stock, payable April 1, establishing an annual dividend rate of 6 per cent.

The increase in production in 1895 over that of the previous year was very marked, although the gain to the company was caused more by the advance in price of iron and steel than by the increased output. The tonnage of raw materials received in 1895 was 4,355,243 tons; tons of finished product shipped, \$75,690. In 1894 the tonnage of raw materials received was 3,239,370, and the tons of finished product shipped 562,446. In 1894 the company paid out in salaries and wages \$3,071,294, as against \$6,326,756 in 1895, and employed on an average 5909 men a day, as compared with 10,382 in 1895.

These figures, says the Record, are their own evidence of the return of prosperity, at least in certain lines. They are especially encouraging to the extent that the condition of business in the iron and steel industry is very generally considered "the barometer of trade."

The Herald has received Bulletin No. 18, issued by the state commission of entomology, and in it Dr. Luger has reported upon his investigations during the past year with chinch bugs, grasshoppers and numerous other insects which are injurious to field and garden crops and to fruit and forest trees. A valuable article is also given on machines for applying insecticides, both wet and dry. The fact that the work of the commission is becoming rapidly both more scientific and more practical is illustrated by this bulletin. The character of the plates and other illustrations reflects credit upon the firm which got out the illustrations, as well as upon the author of the bulletin.

The bureau of statistics of the treasury department has issued a series of charts illustrative of the commercial and financial history of the United States. One of these charts shows the exports and imports of merchandise per head of the population from 1790 to 1895. In 1795 the imports were \$7 per head and the exports \$10 per head. In 1845 the exports were \$9 a head and the imports \$6 a head. In 1895 the exports were \$11 a head, and the imports \$10. Imports reached their highest point in 1845. Our exports first exceeded our imports in 1875. In 1894 the total exports and imports of the United States amounted to but \$221,927,638. In 1894 the total exports and imports reached the total of \$1,541,152,191.

According to St. Paul dispatches and the Sixth district court commissioners and officers attending a convention which opened yesterday where they should be delegates from this district to St. Louis. This being the case, why should any of the convention be held—unless, of

course, the people desire to make their own selections.

Rumors have much larger possessions in America than many people imagine. The areas are thus stated: British, 3,634,782 square miles; French, 48,040; Danish, 8,614; Holland, 46,463. The population of these dependencies is as follows: British, 6,133,267; French, 37,700; Danish, 114,237; Holland, 107,885.

One of the Americans arrested at Johannesburg testified that he was induced to join "The George Washington Corps" under false representations as to its purpose. On learning that it was intended to fight the Transvaal government and included only two other Americans, he resigned his membership.

Governor McKinley will find it to his advantage to call off his friends who are trying to get on lights on his behalf in states which have candidates of their own. The present course of his too enthusiastic friends will create antagonisms which may be injurious to him at St. Louis.

W. H. Burke has gone back to Chicago and will resume newspaper work there. Mr. Burke returned to Duluth several months ago to take charge of an evening paper, but the results were so unsatisfactory that he was completely discouraged and abandoned the job.

The New York Herald's apology to the New York Yacht club for premature publication of the Dunraven report is eminently professional in tone. The reporters did it in spite of all good Mr. Bennett's efforts to prevent them.

"There is as much a science of success as there is a science of hydraulics," says Dr. Parkhurst. Just so, and most people know as little about one as they do about the other.

Senator Quay's presidential candidacy may not be very serious, but his name was mentioned eighteen times on the editorial page of the Washington Post one day last week.

In preparation for the visitors who will be in the city to attend the St. Louis national convention, the St. Louis Star urges that the streets be cleaned and the wires be put under ground.

A St. Louis woman is applying for a divorce on the ground that her husband keeps unseemly hours. Perhaps the poor man is troubled with insomnia.

The Anoka Union says: "There is too much mud slinging in Minnesota politics." Correct, and the Union should practice what it preaches on this point.

Even the X rays could not discover any new evidence in the case of the man who had not been given in the evening paper on the previous day.

Gen. Alger declares that he is not a presidential candidate. But why should he take the trouble to deny such a self-evident fact?

MR. DAVIDSON FAVORED.

Grand Rapids Magnet: This congressional district of Michigan is a very important one. Hon. A. D. Davidson of Little Falls, as a member of the national Republican convention, Mr. Davidson has all his life been a hard worker in the ranks of the Republican party, without reward, and is a fit recognition for his services that he be awarded the honor of being elected to the U. S. Senate. Mr. Davidson will unquestionably be elected.

OF COURSE HE WOULD.

Anoka Union: If the friends of Hon. A. D. Davidson are so anxious to push him for the nomination for governor, he would make a formidable candidate.

IS NEVER DULL.

Minneapolis Journal: The Journal is evidently not only a source of interest in the office of the Duluth Herald. In a batch of twenty odd clippings just received from the clippings bureau and referring to the Journal, about half the clippings get on without the Journal could hardly get on without the Journal. But on the other hand, we would miss the Herald "like six feet."

THE HERALD'S "LIKE SIX FEET."

It should some day get as mad as the some-time pretends to be and stop the Journal's name. The Herald has a sneaky way of letting people know that it is on earth that saves it from ever being dull or uninteresting, even if it is published in that far-away station on the north of the North pole, the ne plus ultra of civilization.

A MONTANA ATROCITY.

Anaconda Standard: Mr. McKinley appears to be getting quite a number of delegates down there, but he should remember that Morton's X rays can penetrate the Solid South.

TIMELINESS.

Sure as the night descends with subtle grace, Healing the rude abrasions of the day, Who will extend my cherished, drifting thought?

Each man my shadow onward beckons To deeds that earn the rest of evening's glow. In every day life lingers far behind, Abashed at my weak, rambling steps, so slow.

Let not my soul, too long, to minstrel's rhyme, Be lost in sheltered nooks, idle and dumb, But hither on, that when grim visaged Death Striketh the hour, who o'er, thou say, "I have done."

## THE ROUNDER.

G. C. Steele, of the firm of Smith, Parwell & Steele, is not one of those people who think that everything is going to destruction and that we are all on the brink of financial ruin and starvation. "I never saw things looking so bright as they do now," said he a few days of work on the range this year and it will be no question but that it will stimulate the business in many lines. "I do not believe the people here are taking the interest they ought to in the Hines railroad project. That road if built would be a grand thing for Duluth. I believe it will be built too, and the people here ought to give it all possible encouragement. This city needs to bring these North Dakota people to this city and have no trouble in finding it to their own Office. All Duluth needs today is a railroad which will center here. That road would benefit every line of trade here, retail and wholesale."

Neither patches nor coverings are a disgrace according to some good old-fashioned folks who will create antagonisms which may be injurious to him at St. Louis.

W. H. Burke has gone back to Chicago and will resume newspaper work there. Mr. Burke returned to Duluth several months ago to take charge of an evening paper, but the results were so unsatisfactory that he was completely discouraged and abandoned the job.

### CITY BRIEFS.

Cullum, Dennis, Palladio, Phone No. 9. Smoke London cigar. W. A. Foote, Rev. C. H. Patton will give a series of lectures on the subject of the "Mystery of the Church" Wednesday afternoon during Lent. The readings will begin promptly at 2:30 p. m. and last one hour. "Herodity and Christian Prophecy" by W. H. Bradford. The case against William Martin, charged with operating a gambling table in room 206 Chamber of Commerce building, was continued in the municipal court this morning by consent to Monday next at 2 o'clock in the afternoon. The continuance was granted on the request of John M. Martin, attorney for the defendant, who presented an affidavit that his client was ill.

The health department has issued a permit for the re-erection to Towse, A. V., of the rooming house at 216 West Second street, who died Dec. 29 last, of typhoid fever. Miss Bradham was a teacher in the Franklin school, in this city, and her parents live at Townsend, where she will be finally interred.

The jury in the case of Oscar Henderson against Andrew Wilson, in the municipal court, reported at 5:30 o'clock last evening that it was unable to agree. The case was discharged by Judge Doyle. The jury was out six hours and it was understood that on the twenty-fifth ballot the vote was 6 to 6.

The Sunday school of the Methodist Episcopal church will give a Lent year bazaar social at the church tomorrow at 6 p. m. The boys will bring the baskets, which are to be sold at auction.

Tonight the Scottish Rite Masons will work the fourteenth degree, and there will be eight candidates, four of five of them coming from Mrs.

The remains of Mrs. Catherine Henderson, of New Duluth, who died yesterday of old age, at the age of 74 years, will be taken to Antler, Wis., for interment.

The following deaths have been reported to the health department: Philip Kirkwood, of Fifty-sixth avenue west, of typhoid pneumonia; Dorothy I. Dawley, of 212 Fourteenth avenue east, of bronchitis; Oliver Oas, of 218 Eighth avenue east, of heart disease; Catherine Henderson, of New Duluth, old age.

The house at No. 322 Second avenue east was investigated by the board of public works yesterday afternoon and found to have started downhill, the underpinning having given way slightly, allowing it to lean more than a foot out of line. It will be braced at once.

The following births have been reported to the health department: A son to Christ P. and Ingeborg Botman, of 922 West Fifth street; a son to Alfred and Emma Erikson, of Sixty-seventh avenue west and Raleigh street; a daughter to Franz and Amanda Towell, of Fifty-

## OUT OF IT

City Attorney Cant is Not  
a Candidate For  
Re-Election.

His Private Business is  
Worth More Than the  
Office.

Report That Laboringmen  
Want Sargent For Chief  
of Police.

City Attorney Cant has determined not to be a candidate to succeed himself. He has asked his friends not to urge his name for the appointment, and in deference to his earnest wish, so emphatically expressed, they have assented. Mr. Cant stated to a representative of The Herald yesterday that he had made up his mind last week not to be a candidate.

"There are several reasons," said he, "that have impelled me to that my name be not considered for the position of city attorney. In the first place, it is questionable whether it pays to neglect my private business for the duties of the office, which, if conscientiously attended to, furnish enough to keep me busy. Then the question of my eligibility has been raised, it having been objected that, as a member of the legislature, I had no right to act as city attorney. Apart from the moral question of propriety, I dislike to find myself in the position of holding office when my right to do so seems open to debate. I will say, too, that, in case the recommendation of the retirement committee is carried out, and the salary reduced, I should not receive it, even if the first mentioned reason did not exist."

The field of speculation as to who will be appointed to the office is now reduced, with Allen and Dehman in the lead among the few who are named.

**COSTELLO IS KICKING.**  
It is reported that the laboring element which supported Henry Truesden in his candidacy for mayor proposes to nominate who shall be chief of police, and that the man they insist shall have the office is James W. Sargent, the popular St. Paul Duluth contractor. Mr. Costello, the wonderfully eloquent man who rose from section man to conductor of the street cars, and who has been told it in his campaign speeches, and his followers have been made very angry by the charges, and for many days have been to be appointed chief of police. They declare that it shall be Jim Sargent or no one and say that if Hansen is appointed they will defeat his confirmation. Furthermore they assert that they will defeat the confirmation of any man other than Sargent.

The power of the mighty Costello is probably not to be greatly feared by the mayor-elect, but there may be some of his followers who could swing a vote or two.

**MONTROY DISCHARGED.**  
Case Dismissed By Judge Boyle  
This Afternoon.

The hearing of Charles Montroy on the charge of larceny of money and goods belonging to Joe Bloom, the tailor, was heard before Special Judge Boyle today. Bloom testified as to his trip to Hibbing to look after his recent employees and gather up what goods he could recover. He said that Campbell and Montroy had distributed suits among several of his landladies for board and had also fitted out several salesmen in payment for bar bills.

The story to the effect that Montroy had run away from the complaint against him was dismissed by Judge Boyle yesterday. The argument was made by Montroy and his attorney, who say that, after the complaint had been dismissed, they went to the attorney's office and from there to lunch together. Montroy not making the slightest attempt at concealment.

Montroy was dismissed at 3:15 o'clock this afternoon, Judge Boyle holding that the charge was not sustained.

**Gets His Land.**  
The case of the government against E. W. Anderson, one of the special hearing cases heard before the land office a year ago, has been decided by Acting Commissioner Best. The entry was made at the St. Cloud office in October, 1888, but the land has since been re-entitled to this district. In January, 1891, the entry was held for cancellation. After the hearing, Receiver Ryan decided in favor of the settler and Register Taylor in favor of the government. Acting Commissioner Best affirms the receiver's decision and reverses that of the register.

### STRONG WAS FINED.

Found Guilty of Permitting  
Gambling in His Office.

Judge Edson sat in the municipal court behind a stack of blues and reds and several decks of cards, over which he glanced with the eye of a "kanoner," as Tommy O'Brien remarked, while the evidence in the case against R. D. Strong was being heard, yesterday afternoon. Judge Edson requested that one of the packages of cards be opened. At this demonstration of a desire on the part of his honor to draw cards, there was some interest displayed. Chief Armstrong and Capt. Thompson were seen to glance over at the judge, and immediately became engaged in an earnest discussion. While with his right hand he pocketed his mustache meditatively, the chief glanced again at the cards, as his honor drew a handful, and scratched his head and the captain smiled triumphantly, after which the two adjourned to the highway.

"What will your honor do?" inquired Strong's attorney.

The court intimated that it was Strong's want, and assessed that gentleman \$20 and costs for permitting gambling in his room, the Chamber of Commerce building. Part of the costs were remitted and Strong contributed \$13.12.

Chief Armstrong, Capt. Thompson and Detective Benson testified for the prosecution, the only testimony put in for the defense.

### TROUBLE OF ITS OWN.

Mountain Iron Disagrees With  
Its Water Company.

The village of Mountain Iron, in this county, its sitting on metropolitan air and endeavoring to simulate Duluth's example by having a squabble with its water company. Papers were filed this morning in the office of the clerk of district court in a suit in which the Mountain Iron Water Company sues the village for \$487.50, alleged to be due for hydrant rental.

The complaint sets forth that prior to April, 1894, the village had no water supply for use in case of fire, and to use the supply by the village, and for any other purpose. During that month the village made application to A. Rescoe Merritt to build its water system, and he agreed to do so. It was done, and in August, of that year, the new plant was presented for approval and the village formally accepted it.

Business was continued in the usual manner for some time, and the company alleges that the village accepted the village and paid its hydrant rentals until last July, when it failed to do so, and has not done so since. Hence the suit. A. A. Harris & Son are the attorneys. The village sets up as a defense that the company has not given sufficient pressure to carry out its contract, and therefore it does not feel compelled to carry out its part of it. McCord & Crosby are attorneys for the village.

**MR. COWDEN OBJECTS.**  
R. S. Cowden, who was freeman at the court house during 1893 and 1894, and was turned out with the change in administration and paid his hydrant rentals until last July, when he failed to do so, and has not done so since. Hence the suit. A. A. Harris & Son are the attorneys. The village sets up as a defense that the company has not given sufficient pressure to carry out its contract, and therefore it does not feel compelled to carry out its part of it. McCord & Crosby are attorneys for the village.

Cowden alleges that Haverstick is a political hanger-on of the village, and that Swanstrom is a relative and a political hanger-on of the village. He says that the village is a political hanger-on of the village, and that Swanstrom is a relative and a political hanger-on of the village.

**WANTS IT MORE SPECIFIC.**  
Leonidas Merritt has filed notice of a motion to make the complaint more specific in the case of the county commissioners against the board of the American Loan and Trust company in the following particulars: By stating whether the \$772.57 alleged to have been on deposit was an open account, or if it was evidenced by a certificate, by stating what interest it has to draw; also, to separate the two causes of action embodied in the demands for \$86,562.12 and \$772.57.

In the case of Lydia Hawkins against the Eastern Minnesota, the defendant has noticed a motion for a new trial on the ground that excessive damages were given under the influence of passion and prejudice.

J. C. Heklesen has filed a mechanic's lien for \$27.54 against the Scandinavian Union Church of assembly.

## OF THE

### Board of County Commissioners.

Of St. Louis County, Minnesota.

Auditor's office, St. Louis County, Duluth, Minn., Feb. 5, 1896.  
The board of county commissioners met at 2 o'clock p. m. this 5th day of February, 1896, pursuant to call.

Present: Commissioners Miller, Dinham and Chairman Helm.

The minutes of the last meeting were read and upon motion of Commissioner Dinham were approved.

Petitions and communications were presented and read as follows:

A petition under date of Jan. 6, 1896, signed by J. D. Moore and twenty-five other farmers and homesteaders residing along the Floodwood road, asking the board to appropriate the sum of \$500 to improve the Swan lake road in townships 25, 26 and 27, range 20 and 21, and the two and a half miles of road connecting said Swan lake road with the village of Floodwood.

Referred to committee on highways and bridges.

A communication under date of Jan. 20, 1896, was as follows:

To the Honorable Board of County Commissioners:

At a meeting of local union No. 67, journeymen barbers of this city, the following resolution was unanimously adopted:

Resolved, that the members of local union No. 67, journeymen barbers, do endorse the action of the honorable board of county commissioners in proceeding to erect a new jail in this city, and that the members of the above union to see said jail completed at an early date. Therefore we ask that your honorable body use all honorable means to further the construction of a county jail.

C. G. Fivola,  
Committee on Resolutions.  
Ordered received and placed on file.

A petition dated at Duluth, Minn., under date of Feb. 1, 1896, addressed to the chairman of the board of county commissioners, as follows:

Your petitioners, the St. Louis county board of immigration, would respectfully submit, that whereas, at the recent convention of the Sixth District Immigration association, Minnesota, held in this city, it was shown that a large interest was taken in the same, and that manifest benevolence would result in the future to this county, especially, and the county at large, by the exertion of our local board, to show by continuous efforts in future that the county is a place of refuge and advantage of our country in its varied resources, and in particular our agricultural possibilities, and that it is necessary to properly conduct the late convention in this city, it became necessary to incur an expense of \$100 to provide for printing and entertaining the visiting delegates from the counties throughout the Sixth district.

It is resolved by your honorable body that the sum of \$100 be appropriated to this county, that you appropriate the sum of \$100 to defray the expenses of the board of immigration, of which it is respectfully submitted.

By D. A. Petre, President.  
Referred to the committee on claims and accounts.

A communication from the attorney general under date of Jan. 27, 1896, addressed to the county auditor's office, as follows:

You state that you incurred certain bills in matters of interest to the county, two being for the services of stenographer and typewriter and one for disbursements in securing a certified copy of a record necessary to be used in actions instituted by you on behalf of the county. The board of county commissioners are in doubt as to whether or not the said bills are proper charges against the county, and for that reason have deferred action upon them until a future meeting.

The bill for the stenographer's services is clearly a proper charge against the county.

Strictly speaking the other items are not county charges.

As I understand your statement they were incurred for merely clerical services, which could have been performed by yourself. Ordinarily expenses for such services should be borne by the county attorney. While this is so, a case may arise when the time of an official is so much occupied with official duties as to afford him no reasonable opportunity in which to perform the services himself. He is not required to employ such services. When, however, they are necessary to a county, they are a business of the county, as would seem to be the case as to the services in question. The board of county commissioners might properly allow compensation therefor. To say that such bills are always lawful would be to approve the employment at the county's expense of a stenographer and typewriter in copying every indictment, pleading, or other paper prepared by the county attorney, which you do not contend for this, but ask assistance only in exceptional cases, like those above mentioned.

I am, very truly yours,  
H. W. Childs,  
Attorney General.

Ordered received and placed on file.

A communication from the county attorney, addressed to the board, under date of Feb. 4, 1896, as follows:

In relation to the liability of this county to one Church, an Indian, which was called to your attention by a letter from Peter Phalan, of Cloquet, Jan. 17, 1896, which letter is herewith inclosed, I will say that in my opinion there is no circumstance connected with the injury which said Church is alleged to have received which would in any way make this county liable for his medical attendance, etc. He is not a resident or citizen of this county, and I can see no reason why any liability should attach.

Yours very truly,  
George E. Arbary,  
County Attorney.

Ordered received and placed on file.

A communication from the county attorney, addressed to the board under date of Feb. 4, 1896, as follows:

The question has been asked whether a special bond election, which occurs March 10, can be conducted in connection with the township elections which occur on the same date, so that the expense of one election can cover both.

I would say that it cannot. The bond election is a county election and must be conducted separate and distinct from township elections. The two elections can occur on the same day, but must, in other respects, be kept separate. Both

elections may be conducted by the same board, but notices of election, the ballot boxes, and the ballots must be separate. Yours very truly,  
George E. Arbary,  
County Attorney.

Ordered received and placed on file.

A communication from the county attorney, addressed to the board, under date of Feb. 4, 1896, as follows:

The petition from Chester, Minnesota, was submitted to me by the county auditor.

In said communication your attention was called to the claim on the part of the "Tax Payers' League," that the petition of the notice of the expiration of redemption from tax sales was not authorized by law, and that the attorney general had given an opinion to that effect.

The publication of such notice was authorized by chapter 194, section 1, of the revised statutes of 1887. There have been several amendments to the law since the passage of that act, but in no instance has the legislature expressly repealed this law relative to the publication of such notice. If the same has been repealed by implication, it is only, and with the view to satisfy myself upon that point, I have carefully examined the history of the act referred to, namely, chapter 194, section 1, of the laws of 1887, there were practically the same provisions existing relative to notice of redemption from tax sales as there are today, so that if there has been repeal by implication it is an absolutely useless law from the beginning.

I am not aware of any opinion of your attorney general holding that the publication of such notice is unauthorized. The supreme court has not as yet expressed an opinion upon the matter, and until it does I would deem it very unwise to ignore the express provisions of the statutes.

The alleged opinion of the attorney general backed up by an implicit threat of the county treasurer, would not happily not the law of this state, and I have no doubt that even though the supreme court may in the future decide to particular statute to be nugatory, it would, until then, sustain the board in the action of the honorable board of county commissioners in proceeding to erect a new jail in this city, and that the members of the above union to see said jail completed at an early date. Therefore we ask that your honorable body use all honorable means to further the construction of a county jail.

C. G. Fivola,  
Committee on Resolutions.  
Ordered received and placed on file.

A petition dated at Duluth, Minn., under date of Feb. 1, 1896, addressed to the chairman of the board of county commissioners, as follows:

Your petitioners, the St. Louis county board of immigration, would respectfully submit, that whereas, at the recent convention of the Sixth District Immigration association, Minnesota, held in this city, it was shown that a large interest was taken in the same, and that manifest benevolence would result in the future to this county, especially, and the county at large, by the exertion of our local board, to show by continuous efforts in future that the county is a place of refuge and advantage of our country in its varied resources, and in particular our agricultural possibilities, and that it is necessary to properly conduct the late convention in this city, it became necessary to incur an expense of \$100 to provide for printing and entertaining the visiting delegates from the counties throughout the Sixth district.

It is resolved by your honorable body that the sum of \$100 be appropriated to this county, that you appropriate the sum of \$100 to defray the expenses of the board of immigration, of which it is respectfully submitted.

By D. A. Petre, President.  
Referred to the committee on claims and accounts.

A communication from the attorney general under date of Jan. 27, 1896, addressed to the county auditor's office, as follows:

You state that you incurred certain bills in matters of interest to the county, two being for the services of stenographer and typewriter and one for disbursements in securing a certified copy of a record necessary to be used in actions instituted by you on behalf of the county. The board of county commissioners are in doubt as to whether or not the said bills are proper charges against the county, and for that reason have deferred action upon them until a future meeting.

The bill for the stenographer's services is clearly a proper charge against the county.

Strictly speaking the other items are not county charges.

As I understand your statement they were incurred for merely clerical services, which could have been performed by yourself. Ordinarily expenses for such services should be borne by the county attorney. While this is so, a case may arise when the time of an official is so much occupied with official duties as to afford him no reasonable opportunity in which to perform the services himself. He is not required to employ such services. When, however, they are necessary to a county, they are a business of the county, as would seem to be the case as to the services in question. The board of county commissioners might properly allow compensation therefor. To say that such bills are always lawful would be to approve the employment at the county's expense of a stenographer and typewriter in copying every indictment, pleading, or other paper prepared by the county attorney, which you do not contend for this, but ask assistance only in exceptional cases, like those above mentioned.

I am, very truly yours,  
H. W. Childs,  
Attorney General.

A communication from the county attorney, addressed to the board, under date of Feb. 4, 1896, as follows:

In relation to the liability of this county to one Church, an Indian, which was called to your attention by a letter from Peter Phalan, of Cloquet, Jan. 17, 1896, which letter is herewith inclosed, I will say that in my opinion there is no circumstance connected with the injury which said Church is alleged to have received which would in any way make this county liable for his medical attendance, etc. He is not a resident or citizen of this county, and I can see no reason why any liability should attach.

Yours very truly,  
George E. Arbary,  
County Attorney.

A communication from the county attorney, addressed to the board under date of Feb. 4, 1896, as follows:

The question has been asked whether a special bond election, which occurs March 10, can be conducted in connection with the township elections which occur on the same date, so that the expense of one election can cover both.

I would say that it cannot. The bond election is a county election and must be conducted separate and distinct from township elections. The two elections can occur on the same day, but must, in other respects, be kept separate. Both

elections may be conducted by the same board, but notices of election, the ballot boxes, and the ballots must be separate. Yours very truly,  
George E. Arbary,  
County Attorney.

A communication from the county attorney, addressed to the board under date of Feb. 4, 1896, as follows:

Whereas, it appears that to William Walls, of Biwabik, is largely due the successful apprehension of the murderers of Samuel De Mars, therefore,

Be it resolved, by the board of county commissioners of St. Louis County, Minnesota, that we recognize the valuable services of the aforesaid William Walls and tender him our sincere thanks for same.

A petition for the formation of a new town, to be named Payal, was presented and read, as follows:

The undersigned, legal voters of township number fifty-seven (57), north of range number seventeen (17) west, in the county of St. Louis, State of Minnesota, being a majority of the legal voters resident in said township, do hereby respectfully petition your honorable body that said above described township be set off and organized as a regularly constituted town under chapter 10 of the general statutes of the state of Minnesota, and acts amendatory thereto, and that the meeting place be organized, be known as the town of Payal.

The petition is signed by John P. Welsh and one hundred and thirty-five other legal voters of said township.

Affidavit of the undersigned, John P. Welsh, being duly sworn on oath, states that he is a legal voter and resides in the township described in and petition hereto annexed, and that the signatures annexed and subscribed thereon are the signatures of legal voters residing in the township and under the name of "Payal."

Subscribed and sworn to before me this 4th day of February, 1896.  
J. C. Helm,  
Notary Public.

Upon motion of Commissioner Miller, the prayer of petitioners was granted, and the following was ordered:

## WEST END

Irving School Was Filled at the Exhibition Yesterday Afternoon.

Fine Spectacular Entertainment Was Presented By the Pupils.

Petition Asking For Lieut. Briggs' Retention Is Being Circulated.

A simple notice of a public entertainment to be given at the Irving school building is now sufficient to fill the auditorium to overflowing. The exercises given yesterday afternoon in honor of Washington's birthday formed no exception to the rule and those present were well entertained by the pupils.

The spectacular representation of various scenes in the life of Washington by means of tableaux was, perhaps, the most popular part of the performance. The only thing to mar the scene was the lack of brilliant execution by the stage manager, who some times failed to adjust the lights at the proper time. The fault perhaps was in the system of lighting, rather than the lack of care in direction.

In the fourth scene the old speech of Patrick Henry, which has thrilled many a school boy's heart with patriotism and the delivery of which has led many to believe that he was the coming orator of the country, was creditably delivered by Albert Mallory, who was so loudly cheered that he was forced to repeat the speech.

One of the prettiest tableaux was that of "Washington's Dream," showing thirteen little girls representing the thirteen colonies. William and Maud Coughlin represented George and Martha Washington. William Guilmeis was Cornwallis. Harry Smith was Washington's aide James O'Brien was Lafayette. Miss Minnie Jacoby represented Washington's mother. Lottie and Thomas Robinson treated the audience to a musical selection on the bones and triangle, which was well received. The entertainment as a whole was one of the best which has been given by the pupils of this school and was thoroughly enjoyed by the audience.

WANT TO KEEP BRIGGS.

The announcement that Lieut. Briggs is to be retired from the police department has created quite a commotion in West Duluth, and yesterday a petition was started in circulation to have him retained. The petition is being signed by citizens of all parties.

WAS A SUCCESS.

Great Eastern hall was filled last evening at the exhibition of the pupils of the Sacred Heart institute. The program was carried out virtually as announced and was a success to those who participated. An interesting and instructive address was delivered by Bishop McDevitt.

WEST DULUTH BRIEFS.

Frank Brady, of St. Paul, has returned home after a short visit with his relatives in West Duluth.

Miss Shallen, who teaches at Proctor-knox, came down to attend the entertainment at the Irving school yesterday afternoon.

Rev. Hedberg preached at Cloquet last evening.

The funeral of Mrs. Andrew Nelson occurred yesterday at 10 o'clock.

Dr. Witz's Colic Cure, Little Early Risers and Witz's Hair, Sold at Shieners.

DEMOCRATIC BANQUET.

State Democratic Association Met at St. Paul Today.

St. Paul, Feb. 22.—The banquet of the State Democratic association takes place tonight at the Ryan. Assistant Secretary of the Treasury C. S. Hamlin, who will be the principal speaker, arrived in town this morning.

The business session of the association was held at the Ryan last afternoon. The report of Secretary Smalley showed that 225 new members have been added during the year, making a total membership of 1000. The reports of the other officers were received and new officers are to be elected. The probability is being that both President and Secretary Smalley will be re-elected, although the latter says he will not make a contest if anyone else wants his office.

## UPWARD MOVEMENT IN THE STOCK MARKET DURING THE PAST WEEK.

Upward Movement in the Stock Market During the Past Week.

Revival of a Genuine Investment Demand For Securities Is Reported.

Foreigners Are Again Looking With a Favorable Eye on Americans.

New York, Feb. 22.—The developments of the week in the stock exchange markets have in the main been favorable to higher prices, although the actual new influences have been few in number. The entire absence of stringency in the money market, encouraging exhibits of railway earnings, indications of an early recovery for commercial paper, and the large deposits of gold at the subtreasury, all with other developments on government bond account, have had a stimulating effect. The prevailing belief that the net results of the bond sale to the treasury will be considerably in excess of previous estimates, and confidence in the development of the stock market without disturbance to the money market, have been the chief factors in the upward movement of the securities for foreign account.

Toward the end of the week, the higher quotations from London and the buying referred to in the market, have been without disturbance to the money market. At intervals the stock market has shown a tendency to fluctuate, but the general upward movement has been maintained. The fact that the advance had about run its course, and that the market was not likely to be disturbed by the development of the stock market, has been the chief factor in the upward movement of the securities for foreign account.

The news of the decision of the treasury department to award the \$2,000,000 bonds on which the various securities of the government had been placed, and the fact that the treasury department had decided to place the bonds on the market, has been the chief factor in the upward movement of the securities for foreign account.

## SCARCITY

Ice Companies May Have Trouble in Securing Their Crop.

Ice For Domestic Use is Not Easy to Get Now.

Charter Requires it to Be Cut a Mile From Shore.

Duluth ice men are in a stew over a threatened scarcity of the product in which they deal, and paradoxical as it may seem, the coming summer may be very chilly for them by reason of the fact that they may have no stock on hand. They need 25,000 tons to supply the trade, and the question is, where are they going to get it.

The Duluth ice company and the East 32nd company, were today forbidden permission by the health department to cut ice nearer than 5000 feet from shore, the limit provided by the charter within which ice may not be taken for sale except for use in storage. And not only that, but the companies were informed by Dr. Routh that the ice they had in their warehouses, being the stock carried over from last year, aggregating 4500 tons could not be sold for other than packing purposes. This ice was cut last winter, being taken from a point about 1000 feet from shore under verbal permission from Dr. Coffe, who was then health officer. The representatives of the ice companies feared that the ice had been taken under the supervision of the health department, but the provision of the charter places it beyond the power of the health officer to grant any leave to cut ice for general sale inside the stated limit, and Dr. Routh was inexorable.

It was discovered this morning that preparations were being made to take ice from a point of Twenty-first avenue east, about 100 feet from shore. This storm sewer discharges at Twenty-first avenue east, and the sanitary sewer is three blocks west of the storm sewer. Within the prohibited line, and so the health department, reached out, so to speak, and the ice men were told to head. The ice people were told if they wanted to pack the ice taken from the point where they were working, they must get the direction of the health authority and would sell it only on permission granted on verified statements that it was for storage purposes they could go ahead. The ice men, however, had dropped the remark that they had taken ice last year from a point not much farther from shore.

"How did you come to do that," said Dr. Routh.

"By Dr. Coffe's permission," was the reply. "Well, you fellows can't peddle that ice," said the doctor, and the prospect for ice in high balls and jugs became overcast. The companies say they will be unable to cut any ice for domestic purposes, at present, and possibly not all.

They had cut a channel and were taking from a point over a mile from shore. The health department covered yesterday that the field they were working on had parted from the shore line, and the ice men were told to head. When the men realized their position a space of water a yard wide yawned between them and the shore. A lively scramble ensued to find a place that had not been reached by the ice men, and in number, and tools were landed in the water. The ice men were told to head. The ice men were told to head.

The ice at Spirit Lake is reported to be much softened by the recent warm weather, besides which the charges for hauling it are high. Altogether, the prospect for ice for general use is very blue, and ice cream and girls will be an expensive luxury this season.

## He Likes Birmingham.

I. Abrahamson returned this morning, after a six weeks' trip through the South and East. "The weather through the South was perfect," said Mr. Abrahamson, "but in New York it was disagreeable. I found business good everywhere. In Birmingham, Ala., it was booming, and so much was I taken with that city that I decided to install my son Julius there in the business of manufacturing mattresses and iron beds. It is a city much like Duluth, surrounded by iron mines, and has all the evidences of prosperity, but they are very false. Duluth, as they fear our competition when the manufacturing of iron is taken up here."

## Union Pacific Meeting.

Monday afternoon at 3 o'clock a meeting will be held in the board of trade room which will be addressed by Martin H. Bonville, of Minneapolis. In the interests of the reorganization of the Union Pacific, all the public bodies of the city have been asked to attend. Mr. Bonville will endeavor to show the citizens of Duluth and Superior that this section is financially better off than when it was a part of the Union Pacific.

## EXCITED

Two Harbors People Were Talking of Having a Lynching Yesterday.

Gust Johnson Arrested on Complaint of His Young Daughter.

His Discharge Followed, Evidence of a Conspiracy Being Shown.

Two Harbors was all torn up with excitement yesterday and the good people of the quiet little town were even talking of holding a lynching here. Gust Johnson, proprietor of the Swedish hotel there, was arrested yesterday on a charge of having carnal knowledge of his daughter, aged 12 years, a pretty bright-eyed girl. He was locked up at once; sent a dispatch to Allen, Baldwin & Allen to come up and appear for him at the hearing in the afternoon.

Albert Baldwin went up in the afternoon and had an interview with Gust Johnson and his daughter. He was working up the affair. Some people were talking wildly and under a leader might have resorted to desperate acts. Johnson was badly frightened.

The hearing taken up before Judge Bryan about 4:30 o'clock. County Attorney Dwan appeared for the prosecution. The complaining witness was the girl. She testified that in November last she was working in the barn with her father. They were up in the left winging hay and she was milking for him. While there he made an improper proposal and upon her refusal accomplished his purpose by force. She said nothing further about it until now.

On cross-examination she admitted that she had been seduced, claiming that they kept her under too much restraint. She admitted going out to a good deal with Napoleon Gratien, a young Frenchman. She said that she told Gratien of her father's act after he questioned her and claimed he had witnessed it. As near as could be learned she kept company with Gratien about two years. There was no evidence that the girl is pregnant.

GRATIE'S TESTIMONY. Gratien was next put on the stand. He is a young man about 25 years of age. He claimed to have seen Johnson on November last and went out in the barn. The left door was closed and he slipped out and went to a boat outside and peeped in. He claimed he saw Johnson in a compromising position with his daughter. He went away and said nothing.

On the examination Gratien admitted having had trouble with Johnson, with whom he boarded for a time. He said that he had seen Johnson on November last and went out in the barn. The left door was closed and he slipped out and went to a boat outside and peeped in. He claimed he saw Johnson in a compromising position with his daughter. He went away and said nothing.

At this point an adjournment was taken until evening and Mr. Baldwin testified that Gratien and his daughter had been caught locked in rooms together during the time he boarded with Johnson. Others testified that Gratien had been heard to say that he had never seen any evidence of improper conduct on the part of Johnson toward his daughter.

The case was rested here without putting Johnson on the stand and he was at once dismissed.

As the judge gave his ruling the crowd which had heretofore been talking of lynching Johnson, cheered him loudly and he went out of the court room a happy man.

## Death of Miss Guilloitte.

Miss Raymond Guilloitte died yesterday of typhoid fever at the Women's hospital. Miss Guilloitte was widely known in Duluth for her friendly and high qualities. She was a native of Duluth and was a large circle of friends, to whom her amiable character and high qualities were well known. She had been recovering from the fever but was taken with a relapse. The Episcopal house service for the dead will be read this afternoon at the residence of A. Smith, No. 1231 East Superior street, where deceased made her home, after which the funeral cortege will convey the remains to the depot, to be shipped to St. Paul, Minn. Miss Guilloitte's former home, whither they will be escorted by Mrs. F. H. Taylor, her sister.

## Remenyi Coming.

On Friday, March 5, the great violinist, Remenyi, will give a concert at the First Methodist church. This concert will be given under the auspices of the Star lecture committee, but will not be in the regular course and separate tickets must be secured for it. Remenyi is one of the foremost of living violinists and has been before the public for years until his name is a household word.

## FOSTER WENT BACK. He is Accused of Stealing a Ring.

Frank Foster, a traveling agent for the Collier Publishing company, was arrested at a late hour yesterday afternoon on a telegram from Sheriff Connors, of Hurley, Wis., stating that Foster was wanted there for the larceny of a ring valued at \$75. The arrest was made by Capt. Thompson, who found him at the Merchants' hotel.

Sheriff Connors arrived here this forenoon and had an interview with Foster and from the sheriff's story it appears that the ring, the property of a lawyer in Hurley named M. P. Lannon, turned up in the possession of a young lady of accomplished disposition who had returned it to Lannon saying that Foster had given it to her in Bessemer, Mich. The time the woman claims he gave her the ring but denies having had it in his possession and attributes his position to the fact of his having been too reckless in picking up acquaintances in Bessemer, with whom he made the rounds of the town, and some of whom may have given the woman the ring.

Foster said he was willing to return to that place on the 3:59 o'clock train this afternoon. The police have a theory that an individual named Sullivan, who travels for a masquerade costume establishment in Hurley, and who came here with Foster from Bessemer, may know more about the affair than he would be willing to tell, and the fact that he has departed for the range leaving an unpaid hotel bill at the Merchants' hotel as a memento of his visit indicates a carelessness about the matter that tends to confirm this idea. Sullivan was in Foster's company in Bessemer. Foster is spoken well of by Collier's general agent here, who says he has known the accused some time.

## LEHIGH VALLEY LINE.

All the Wooden Steamers to Be Sold.

There is prospect of a change in the Lehigh Valley line before long, though it is doubtful if much will be accomplished for the coming season, says a Buffalo dispatch. It is well known that Manager Henry has wanted some new steel steamers, but he is aware that it would be impossible to try to have them built now. If the Cayuga is raised in ground of replacing them with first-class steel boats, he will be glad to get her, but that may take the entire season. Manager Henry has recommended the selling of the old wooden steamers and the building of six or seven steel ones, and the company is considering the question, but the difficulty of selling such vessels now is an equal difficulty of replacing them with first-class steel boats. The proposition will not doubt be adopted as a policy, but the change will hardly be made with the rush that characterized the Union line when it got tired of its old steamers.

Considerable curiosity was shown by the Lehigh Valley line, which developed the fact that Manager French was about all there was of it, though other capitalists owned nearly half of the stock. The vice-president elected was the manager's son, and his head clerk was made secretary and treasurer.

## ANOTHER STEEL SHIP.

Will Be Built For Wolvin Syndicate of Duluth.

W. I. Babcock, of the Chicago Shipbuilding company, informs the Marine Review that he has just closed a contract with the Wolvin syndicate of Duluth, for a steamer to be delivered at the opening of navigation in 1897, of the following dimensions: 400 feet keel, 80 feet beam and 28 feet deep. She will be practically a duplicate of the steamer Zenith City, built by the Chicago company for the same people and will be constructed from the same material. The machinery will be the same and probably the boilers, although the matter of boilers is not definitely decided yet. The Zenith City has water tube boilers made by the Babcock & Wilcox company.

Inspectors for the twelve 400-ton vessels that are being built in different lake shipyards for John D. Rockefeller are: One steamer at yard of Cleveland Shipbuilding company, and two at Detroit Dry Dock company's plant, Wyandotte, Mich.; one steamer at yard of Globe Iron Works company, Cleveland, together with a steamer and two ketch tugs at Wheeler & Co.'s yard, West Bay City; John Haug, of Philadelphia; one steamer and two ketch tugs at American Steel Barge company's yard, West Superior, as well as two tug barges at South Chicago, Carl P. D. Herriman, of the Bureau Veritas, Chicago.

Following are names selected for some of the new vessels now under way in lake shipyards: Edith-shaw steamer at West Bay City, City of Bangor; Roly Transportation company's steamer at sun yard, L. C. Walker, North Western Transportation company's steel tug barge at South Chicago, George E. Hartnell, C. W. Emphick & Co.'s steamer at South Chicago, George N. Orr, Minnesota.

# \$10.00 Wonder

## The Beginning of the End

Watch for our Grand Special opening on Spring Hats. You will have a rare chance to add style to your brain department, Thursday, Friday and Saturday of this week.

# \$10

Now buys you a suit of beautiful clothes, even those exquisitely shaped and quality finished suits you're familiar with up to \$25 that so speedily sell here, go at \$10; they consist of our exceedingly fine custom finished Cheviots, Vicunas, Clays, Diagonals, Worsteds and Meltons in both sack and frock styles.

268 Suits to Select From at That.

## You Say, Why Such an Unmerciful Sacrifice?

We say in explanation that our recent extraordinary One-Half Price sale leaves us with some 268 Suits. We admit that the out sizes and under sizes are broken, and in some rare instances the regular sizes are not complete, but we'll fit the majority of you, and if your size is not gone, you're very lucky. They're on Separate tables, easy to see, easy to examine, and easier yet to buy by virtue of this great price slaughter, the price for choice. . . . \$10.00

## Bring Your economical streak with you.....

## Rare News of New Furnishings Just in

We think you will excuse our slight feeling of pride in speaking of the new furnishings for spring. We wish especially to call your attention to a Royal family of Neckwear selling at 50c and to our exquisitely natty line of the famous fancy colored Manhattan Shirts for spring. In fact turn your fancy free and let it drift through our entire Gents' Furnishing department—you'll not regret it.

## CUTTERS

Two Revenue Cutters For Service on the Great Lakes Authorized.

The Senate Passed the Bill, And Each Will Cost \$200,000.

Bill Granting a Pension to Secretary Gresham's Widow Passed.

Washington, Feb. 24.—(Special to The Herald.)—The senate today passed a bill authorizing the construction of two revenue cutters for service on the great lakes at a cost of \$200,000 each.

After considerable discussion the senate passed a bill granting Mrs. Walter Q. Gresham a pension of \$100 monthly.

There was a short discussion over Mr. Lodge's resolution directing the finance committee to inquire into the circumstances of bond issues during 1895-96, but the arrival of 2 o'clock brought with it the renewal of the discussion of the Cuban question. Mr. Morgan resumed his speech advocating the resolution, to recognize the Cubans as belligerents.

In the house the consideration of the Indian appropriation bill was resumed, and a resolution to pay the Seminole annuity of \$25,000 to the Indians themselves by a government officer was adopted.

Two cents for The Herald. Price of The Evening Herald reduced. Ten cents a week delivered by carrier.

## Major Sears Returns.

Major Sears returned yesterday evening from Washington where he appeared before the committee on rivers and harbors, and presented the Duluth-Superior harbor project and explained it to the committee. Congressman Towne spoke at some length upon the matter and his address was entirely impartial as to the two cities, Duluth and Superior. Major Sears thinks that if any appropriation for this harbor is made it will be a good one.

AMENDED ARTICLES FILED.

Amended articles of incorporation were filed by the Schuller-Hubert company with the register of deeds this morning, changing the name of the corporation to the Schuller-Gier company.

Articles of incorporation of the Apostolic Lutheran Church society, of Tower, were filed with Abraham Kinnala as president and the following trustees: Belk Kumbala, Kalle Selvola, Alfred Oiki and Sakie Walberg.

## DAMAGES

Two Large Suits Begun Today in the District Court.

C. L. Wentz Brings Another Suit Against the Insurance Company.

Century Piano Company Sues A. Bailey—Receiver Silvey's Report.

David Coulter this morning began a personal injury suit for big damages against the Duluth, Missabe & Northern railroad, asking \$20,000. He alleges in his complaint that Oct. 18, 1893, he was working for the road as freight conductor. At Iron Junction, a station on the road, he was pulling some cars of coal and his duty required him to descend from the train and make a hurried coupling. He alleges further that the trestle across the road was in bad repair, and that on that account, when he stepped upon it, he was precipitated to the ground below and terribly injured. His back and spine were hurt, and his sight and memory permanently impaired. John Jensvold, Jr. is his attorney.

Charles L. Wentz, because of his arrest and imprisonment on charges from which he was subsequently cleared, has begun a second suit against the Metropolitan Life insurance company and P. O. Ayres and R. F. Dacey, its agents. He alleges that his prosecution was a malicious act on the part of the defendants, and was not in furtherance of public justice. He asks \$20,000 damages. Recently he began a similar suit asking \$27,500 damages. Michael P. Roach is his attorney.

The Century Piano company has begun suit against Abraham Bailey, who mysteriously disappeared several years ago. The complaint, which was filed this morning, alleges that some years ago Bailey purchased a piano for \$150, paying a note payable in partial payments. There is a \$400 note for the piano, and in an affidavit for attachment which accompanies the complaint, it is asserted that Bailey is not a resident of this state, but that he left it with the intent of defrauding his creditors. John Jensvold, Jr. is his attorney.

For the first time in a long while, the monthly report of Receiver W. B. Silvey, of the Spaulding house, shows a slight loss. The report for January was filed this morning, and it shows a receipt of \$942.10 and disbursement of \$942.50, a loss of \$7.50. The net gain to Jan. 31, 1896, is \$5,728.22. The assets on that date were \$3,851.36 and the liabilities were \$4,779.16.

The last day for filing notes of issue for the March term is Wednesday of this week. To begin the calendar there are sixty-eight continued cases.

## FAVORED ARBITRATION.

Dr. Humason Called For Votes Yesterday.

At the Methodist church yesterday Dr. Humason took two votes on the advisability of establishing a permanent arbitration commission between England and the United States to settle all disputes. In the morning the vote was unanimous, but in the evening Dr. Humason stated that the vote was not fair because it had been so arranged that a few could accumulate millions while the many were to come, things were wrong.

Then he called for a ringing vote and it was given. The idea of the arbitration commission was so warmly received that the vote was not fair because it had been so arranged that a few could accumulate millions while the many were to come, things were wrong.

Dr. Humason spoke last night on existing social questions, and made a warm appeal for the betterment of the city who had a tenement house which he boasted was not an income of 50 per cent on his investment. "If I could say a thing like that I would feel like hiding my face in my hands and saying, 'Lord, have mercy upon me a sinner.'"

## LOG FELL ON HIM.

James Shields, of Carlton, Died From Injuries.

James Shields, the 18-year-old son of William Shields, of Carlton, manager of the Paine Lumber company, died at his home at 5:20 o'clock yesterday afternoon of injuries received Friday while engaged in logging work near Miles station, just west of Carlton. The young man was employed as a teamster, and at the time of his injury was standing near his log sled while it was being loaded. The leaders lost their grip of the top log of the load and it rolled over on Shields, striking him on the head.

The injured man was removed to his home where the physician who was summoned made an examination of the injury, reporting that strong hopes might be entertained that it would not prove fatal. Inflammation set in, however, and although the young man was rational and seemed to rally toward the death agonies yesterday afternoon. The funeral will occur tomorrow afternoon at 2 o'clock.

## Saturday's Curling.

The curling games between Duluth and Superior Saturday afternoon and evening resulted in a victory for Duluth, but by a narrow margin on the aggregate scores, and by but one game. Duluth won four games of the six, and Superior won two. The aggregate score was 9 against Superior's 82. The games were as follows:

Pearl Smith, Superior, 19 against D. B. Black, Duluth, 20; A. K. Smith, Superior, 19, against Charles McMillan, Duluth, 20; Tyro, Superior, 19, against Hurdon, Duluth, 20; A. K. Smith, Superior, 13, against D. Morrison, Duluth, 16; Tyro, Superior, 11, against R. J. MacLeod, Duluth, 15.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of Dr. Williams' Pink Pills, the famous little pills, S. F. Joyce.

THE MUNICIPAL COURT.

The municipal court ground out a list of minor offenders this morning. Adolphus Parant, Pat Burk and B. T. Reed being assessed \$10 and costs each for being drunk, in default of which they all went up on the hill. Thomas McLenan, who was arrested for drunkenness on Saturday, was willing to pay \$12 for the privilege of celebrating the birthday of his father of his country in that manner, and forfeited his bail for that amount. Even for his appearance this morning, while William Hagen paid \$5 for the privilege of living without working. Thomas McLenan, alias McLaren, arrested for drunkenness, gave \$12 bail for his appearance on Saturday morning.

## FREIMUTH'S

HIS ROYAL APETITE.

An English actor was a member of a company that was snowed out of the Sierra while en route from California to the East, says the Yakima Herald. Before the train was pulled out of the drifts they had been reduced to eating the coarse fare of the railroad laborers, and got little enough even of that, so that they all had a magnificent hunger on when the train reached a small station at which there was a restaurant. The Englishman was the first to find a seat at a table.

"Bring me in a hurry," he said to the landlord, a burly Western man, "a porterhouse steak, some deviled kidneys, a brace of chops, plenty of vegetables and two bottles of first-class beer."

The landlord stuck his head out of the diningroom door and yelled to some one in the rear apartment:

"Say, Bill, tell the band to play 'Rule Britannia.' The prince of Wales has come."

### NO CAUSE FOR ALARM.

Ice Companies Not Violating  
the Ordinance.

The ice companies say that Dr. Tenth's action a few days ago in reference to the cutting of ice near Twentieth avenue east has created the impression that they were violating the ordinance when there was really no cause for alarm. They think the doctor was a little hasty, although probably meaning no harm. They all say that the ice is only to be used for cooling purposes and not a pound will be sold for domestic use.

Secretary L. Ryan, of the Duluth Ice companies, says: "Our company uses about 15,000 tons of ice annually, 15,000 tons of which is used for cooling purposes and 400 tons for domestic purposes. The ice which we are cutting near the shore of the lake is to be used for cooling purposes in butcher shops, large refrigerators, etc. We never had any intention of selling it for domestic use. We could not afford to jeopardize our business by any such methods as this. It was the Duluth Ice company which secured the passage of the ordinance requiring the ice for domestic use cut 5000 feet from shore. We have cut our ice as far out as two miles some seasons. We cut a channel out a mile from shore this year, as Dr. Tenth well knows, for the purpose of cutting ice for domestic use. When we found the ice moving out in the lake with our men and teams we had to abandon it. The soft weather has interfered and unless it turns colder our supply will be short. We have put in 2000 tons of domestic ice cut at Spirit Lake. If we cannot cut any more we will simply announce when the supply runs out next summer that we can furnish no more ice for domestic use."

"But this is not going to stop us from getting in a full supply for cooling purposes. There would have been just as much sense in stopping us from filling the packing houses with ice near the shore as to stop our cutting ice where we are now, for the purpose for which we will use it. Any ice we sell for domestic use we will stand ready to warrant as absolutely pure. We have never violated the ordinance, and before it was in existence cut our ice farther out in the lake than we are now required to."

Watch for the Gordon hat; it will be out soon.

### CITY BRIEFS.

Cullom, dentist, Palisado, Phone No. 9. Smoke Ehlton cigar. W. A. Foote, Michael P. Roach has resigned his government position in the office of the local inspectors of steam vessels, owing to a pressure of his personal law business. His successor has not yet been appointed.

A boat builder named Frank Miller had a thousand dollar boat house put up near Sixty-sixth avenue west, before his attention was called to the title of having neglected to take out a permit to build. Inspector Robinson dropped in on Miller yesterday, and the latter took out the necessary certificate.

A marriage license has been issued to Emilie Boulanger and Anna Malmoe.

W. Day and others, of Minneapolis, have sold 320 acres in 21-28-20, to Mark B. Koons, of the same city, for \$50,000.

The six children of Charles Peterson, residing at the corner of Fifty-ninth avenue west and Sixth street south, are now all sick with diphtheria. Peterson has had sickness in his family for months, and the house has been quarantined during the past fortnight.

Thomas White and Eureka Langdon, alias Charles Solheim, who were discovered in flagrant delinquency by Officer Smollett, at an early hour Sunday morning, had a hearing in the municipal court yesterday afternoon. The Solheim woman was released, and White was fined \$10 and costs in default of which he was committed to jail.

Arthur Nugent, John Manilla and Mike Fitzgerald were each fined \$10 and costs in the municipal court this morning for drunkenness. Fitzgerald had the assessment, and the others went on the hill for ten days.

Black and Dewey's rinks are each composed of beginners, so under the handicap arrangement neither had the advantage of the other. Hurdon's rink, however, had an advantage, while Dewey's rink had an advantage of two.

Tonight W. B. Dunlap plays Charles McMillan, Donald Morrison plays R. A. Ewa, and one of the following games will be played: D. R. Black against R. J. MacLeod, or Dr. Forin against A. H. Smith.

### BIG DULUTH CUP.

The Result of the Curling Last Evening.

The first games of the contest for the Big Duluth cup were played at Glen Ayr rink last evening. The ice was in poor condition in the early part of the evening, but later it became quite keen, and some very good games were the result. Hurdon's rink, skippered by Ben Smith, went down before Frank Esch's to the tune of 15 to 9.

J. A. Dewey, who won the beginners' event in the bonspiel, met his match in D. R. Black, and is out of the contest. The score was 12 to 8. Much interest was attached to this game, owing to the fact that Black's team was little Jimmy McLennan, who, though but 14 years old, never misses a shot and showed himself to be possessed of the true curler's spirit. Interest in the sport is improving from the reaction of quietness which followed the bonspiel, and some interesting games are expected from this contest.

The rinks and scores were as follows: James McLennan, C. H. Thornton, Joseph Cullin, A. Thompson, W. R. McLennan, Ward Ames, Jr., D. R. Black, skip—12. J. A. Dewey, skip—18.

Guy Henneage, C. H. Henneage, R. H. Quigley, Ron Smith, Frank Esch, skip—15. Harry Hurdon, skip—9.

### THE OFFICES.

Ben Howard Suggested For Fire Commissioner.

Ben Howard for fire commissioner is the latest card up. Ben himself is not saying a word, but it is understood and reported on good authority that the matter has been presented to Ben and that if he has made any efforts to put aside the wealth they have not been so vigorous as to be at all real.

As to the city attorneyship, about all the curious have to feed on is the fact that a certain gentleman very close to Mr. Trustson is having long interviews with Julius Benham, possibly with the idea of being elected. Mr. Benham will not mortify the council by refusing the office if it is proffered him. The assessor to be is as yet unknown but T. B. Hawkes' chances are considered no poorer than they were a week ago.

The rinks and scores were as follows: James McLennan, C. H. Thornton, Joseph Cullin, A. Thompson, W. R. McLennan, Ward Ames, Jr., D. R. Black, skip—12. J. A. Dewey, skip—18.
